

November 3, 2025 Meeting notes:

Summer and fall programs went well. Networked with the town rec department for children's summer reading program. Attendance was good. The rec monitors walked the kids to the library and stayed to help with the programs.

Ann is staying at KML for at least another year and will not retire in 2026. All other staff plan on staying on, too.

Angie's and Gary's terms on the board are finished on 12/31/25. Angie is retiring from the board as of 12/31/25.

Thank you for your service and dedication, Angie!

Looking ahead to spring 2026:

Our gardens have gone wild. A complete overhaul needs to be done. The side garden should be completely dug up - maybe grass or hard surface put in? The front and side gardens become overgrown every year with the invasive morning glory vines. Jerry sprays them but they come back the next year. Some of the shrubs and trees have suffered due to the use of Round Up. There is a local garden/landscape company located in town on Hazelmere Ave. Maybe the owner could look our situation over. So, we can ponder this over the winter months.
